Nearly all varieties offered here are fully described and many of them illustrated in color in our Retail Catalogue. A copy is yours for the asking.

Production of plants has and will be cut, due, naturally to the labor shortage. This, together with the much increased demand for plants during the past year has resulted in an acute shortage of stock.

Therefore, it is much more important now than ever before that you place your order as early as possible to avoid disappointment.

DUE TO UNSETTLED WAR CONDITIONS THAT EXIST THESE DAYS, ALL PRICES ARE SUBJECT TO CHANGE WITHOUT NOTICE.

SHASTA DAISIES**CHRYSANTHEMUM MAXIMUM**

The Shasta Daisies are among the most desirable of all cut-flower material, and are easily grown. The long-stemmed flowers are long lasting when cut. They are all nice clean whites that are unusually useful to work in with other flowers in bouquets and decorations. We offer here the finest of the newer varieties all mostly from pots.

Beaute Nivelloise. A fine new Shasta Daisy with large flowers, having two rows of lacinated petals and a clear yellow center. 18 to 24". All summer. \$2.50 per 10; \$20.00 per 100.

Florist Favorite, of good size semi-double flowers on two foot stems. July and August. \$2.00 per 10; \$15.00 per 100.

Double Supreme. A very outstanding new Daisy being very hardy and an excellent grower. The blooms are large with double row of fringy petals, blooms off and on all summer. \$3.00 per 10; \$25.00 per 100.

Fringed Beauty. Beautiful fringy, fluffy petals. Somewhat similar to the old Chiffon, but better blooms and much better grower. \$3.50 per 10; \$30.00 per 100.

Ophelia. A good hardy and strong growing variety with medium size single flowers. All summer. \$2.00 per 10; \$15.00 per 100.

THALICTRUM (Meadow-Rue)

Lavender Mist (*Rochebrunianum*). 4'. Garden makers, especially those who enjoy perennials, will be fascinated with this new Meadow-Rue. The foliage is like that of a maidenhair fern, delicate and beautiful. The large loose flower panicles of lavender-purple will lend an unusual note in sun or partial shade. 1-year Field Plants. \$3.00 per 10; \$25.00 per 100.

TRADESCANTIA

Tradescantia Purple Dome. A vigorous plant with large clusters of rich purple flowers. 18" high. An excellent plant for shady places. \$2.00 per 10; \$15.00 per 100.

VERONICA

Veronica Incana Rosea. An outstanding new Veronica with silver-group foliage and bright rose-pink flowers on 12-15" stems. Late May to July. Very distinct and attractive. \$2.50 per 10; \$20.00 per 100.

VIOLA

Viola Catherine Sharp. A splendid hardy blue Viola for the garden as well as for the cool greenhouse for winter blooming. The flowers are large and grow on long, stiff stems which places them well above the foliage. Two-year-old clumps are 18 to 24" in diameter, remain nicely compact, produce hundreds of flowers throughout the entire spring, summer and fall. Viola Catherine Sharp is as hardy as Viola Jersey Gem, blooms more freely, and the flowers are about twice as large and a better lighter blue. Does well in light shade and is a charming subject for the rock garden as well. The brilliant yellow eye helps to give the lovely blue flower additional life and sparkle. At last, a reliably hardy Viola with all the fine habits of a good garden plant. Field grown or potted plants. \$2.50 per 10; \$18.00 per 100.

VIOLET

Violet Royal Robe. This glorious variety is a lustrous shade of deepest violet-blue. The blossoms are delicately fragrant and open out flat like a Pansy or Viola. It is quite unnecessary for us to expatiate on the transcendent beauty of this Violet. Suffice to say, a trial in your own garden will bear out all we have had to say, and more. A few plants of this Violet in the garden will serve to furnish quantities of bloom, either during early winter or early spring, and at a time when cut flowers are most highly prized. Field grown or potted plants. \$2.50 per 10; \$18.00 per 100.

Violet Prince of Wales. An old popular variety which is always in good demand. \$2.00 per 10; \$15.00 per 100.

SOME OUTSTANDING NEW SHRUBS

Blueberries. New named varieties 12-15". \$10.00 per 10

CARYOPTERIS—Blue Mist (Blue Spirea)

This charming low growing shrub is a very real contribution to the meager list of summer and fall flowering shrubs. If it is covered from August till autumn frost with numerous clusters of powdery blue fringed flowers. This shrub grows about 18 to 24" tall and is perfectly rounded, making a small mound about two feet in diameter. The foliage is lanceolate and slightly toothed and silvery green in color. A truly worth-while plant for the flower border as well as for in front of the shrubbery border. Perfectly hardy. Nice 2¼" pot plants \$3.00 per 10; \$25.00 per 100.

FIVE OUTSTANDING BUDDLEIAS

Prices on Field plants for all varieties, \$3.00 per 10; \$25.00 per 100.

Empire Blue. Pat.557. A distinct new variety of deep blue with a delicate lilac tone. One of the best we have ever seen.

Fascination. Another hybrid of dainty coloring. It belongs in the pink tones. 2" pots. \$20.00 per 100.

Orchid Beauty. Unusually well-formed spikes of bloom; delicate fragrance. 2" pots \$2.00 per 10; \$15.00 per 100.

Royal Red. Pat. 556. The closest approach to red yet achieved in Buddleias.

Ile de France. 4'. Bright rosy purple, suffused violet. Blooms freely. 2" pots. \$2.00 per 10; \$15.00 per 100.

POTENTILLA

Fruticosa Purdomi. Lemon Drops. A small shrub 2' high, blooming continuously from May to September. Excellent for the rock-garden or in front of taller growing shrubbery. Bright sulphur-yellow blooms. Do try it! 2-year field plants. \$2.50 per 10; \$20.00 per 100.

Herbs

For Cooking and Sweet Fragrance

Most herbs offered are field grown. Prices on all varieties, except where otherwise noted, are: (\$2.00 per 10; \$15.00 per 100. 5 of a variety at 10 rate; 25 of a variety at 100 rate). All these herbs are fully described in our retail catalogue. Send for your copy if you are interested.

This is a message about herbs as it appears in our retail catalogue. We are repeating it here for your interest.

Fashions change—so do gardening trends. Again we find the old-time herbs of our grandmother's gardens in favor. American homemakers are re-discovering the practical value of herbs in cooking, and realizing that beauty and fragrance may be added to their flower borders by the planting of the unusual, decorative, and fragrant herbs.

Most herbs have simple requirements. Average, well drained soil in full sun will suit most varieties listed, unless otherwise noted. May we suggest that the culinary herbs especially, be planted where you will have easy and frequent access to them. Thus, as the occasion arises, you may easily secure a few fresh leaves for your cooking needs, and many a delightful, appetizing dish will grace your table.

In using herbs for seasoning, one basic rule applies: "Use a light hand". Do not overpower the real taste of the food you are seasoning with the herb flavor.

ASTILBE, Fanal

"Lighthouse" is the meaning of the word Fanal. A group of three or six of these lovely plants will surely be the "shining light" in the foreground of a hardy border during May and June. Spire-shaped sprays—the most fiery crimson you can imagine—tower 15 inches above the abundant dark bronzy green foliage, which remains attractive throughout the season. Plant in rich, moisture-retaining soil in semi-shade or full sun. \$4.00 per 10; \$35.00 per 100.
